Helping Protect Your People and Assets

Our complete security solutions provide clear image quality, advanced artificial intelligence video analytics, and intuitive video management software to help you improve loss prevention and operational efficiencies.

Powerful Search

Avigilon Appearance Search™ technology uses artificial intelligence (AI) to sort through hours of video with ease to quickly locate a specific person or vehicle across an entire site in near real-time, helping to improve theft prevention, identify false liability claims, and reduce shrinkage.

Discreet Security

Low-profile camera design and high-megapixel imaging helps you detect incidents clearly and inconspicuously without taking away from your customers' shopping experience.

Cloud-Based System

The Avigilon Blue™ security and surveillance cloud service platform provides remote monitoring and cloud storage capabilities as well as event alerts through the Avigilon Blue mobile app, whether you're at the store or on the go.
Easy Video Management Setup

Avigilon cameras deliver quick integration with our Avigilon Control Center (ACC) video management software to help significantly reduce installation time and total cost of ownership.

Efficient Bandwidth Management

Avigilon High Definition Stream Management (HDSM)™ and HDSM SmartCodec™ technologies reduce bandwidth and storage needs while maintaining image quality.

Avigilon Solutions for Retail

Avigilon Appearance Search Technology
A sophisticated AI search engine that helps you quickly identify a specific person or vehicle and track their route throughout a site in real-time or during investigations.

Avigilon Blue Cloud Service Platform
Allows you to record video on-site and store it in the cloud, with remote management capabilities and event alerts that you can view directly on your mobile device.
H4 Mini Dome Camera Line
Offers discreet security with exceptional image detail available in 1–3 MP resolutions.

H4 Fisheye Camera Line
Provides 360° panoramic views with no blind spots in 6 and 12 MP resolutions.

HD Video Appliances
Provides a network switch, workstation, server and storage, all integrated into a single cost effective, easy-to-install security solution.

H.264 Analog Video Encoders
Convert standard analog video feeds into digital streams—a cost-effective way to include legacy cameras in a network-based IP-system.

Avigilon, a Motorola Solutions company, designs, develops, and manufactures video analytics, network video management software and hardware, surveillance cameras, and access control solutions.

- 24/7 technical support by phone or online chat
- Complimentary software training
